

PM-450 (version 4501)

Grain Moisture Tester

Grain Moisture Tester PM-450

Fast, Reliable, Simple to operate, Competitively priced, Many measurement applications

The PM-450, version 4501 is a general purpose instrument for worldwide use. It will measure a wide variety of applications including wheat, corn, sunflowers, hazelnuts, coffee, etc.

Special Futures

· Wide list of calibrations

Version 4501 is used for grains, seeds, and other small products. Other versions of the PM-450 are available. Please contact us!

· Wide Measurement ranges

The PM-450 can measure the moisture content in grain and seed samples between 1-40% depending on the grain and the PM-450 version.

· Automatic density and temperature correction

The capacitance principle is affected by both density and temperature. The PM-450 includes an integrated scale and thermistor to automatically compensate for variation in both, ensuring accurate moisture measurement each time.

· Pre-programmed calibration curves

Factory calibrations are provided so that the PM-450 is immediately usable.

Automatic Power Off

If no measurement or operation is performed for 3 minutes with the power on, the power is automatically turned off to maximize battery

· Average facility

A sample average can be automatically calculated (simple arithmetic mean) for 2-9 tests.

· Stable load cell

Improvements in the load cell provide even better weight measurement stability when compared with our earlier models.

· Versatile operation

Lightweight, easy to hold, large buttons, audible and display icons (samples below) make the PM-450 an instrument anyone can use, in almost any environment.

14 Hazelnuts 4-15%	14	Hazelnuts	4-15%		(Hobasta)

Specification: version 4501

Measuring principal	Capacitance (Dielectric) (50MHz)
Applications	Grains, Seeds, etc. (application dependent)
Measurement range	1-40% (sample dependent)
Sample volume	240mL
Operating temp. range	0-40°C
Functions	Weight scale, Automatic temperature correction by integrated thermistor, Auto-power off, Auto- display for battery level icon, Average
Display	Digital LCD
Power supply	Batteries(1.5V alkaline "AA" size x 4)
Power consumption	240mW
Dimensions & weight	125(W) x 205(D) x 215(H) mm, approx.1.3kg
Standard Accessories	Funnel, Manual hopper(sample cup), Brush, Batteries(1.5V alkaline AA sizex4), Operating manual.

Quick and Easy Operation

Press power ON
